FIRST WEDNESDAY OF EACH MONTH

7:00 P.M.

MEEKER SANITATION DISTRICT BUILDING

265 8TH STREET

BOARD ROOM

MEEKER, COLORADO

ALL MEETINGS OF THE BOARD OF DIRECTORS
ARE OPEN TO THE PUBLIC.

MEEKER SANITATION DISTRICT

HISTORY

The Meeker Sanitation District was organized on December 4th, 1961. The Meeker Sanitation District replaced many small sewer associations that were established years before the Meeker Sanitation District was organized. The organization of the Meeker Sanitation District would allow all the people who were utilizing these associations, and any people who would like sewer service, but did not have any at that time, to use the Meeker Sanitation District. Since 1961 the Meeker Sanitation District has operated effectively for the community of Meeker.

LOCATION

The Meeker Sanitation District is located on the north bank of the White River in the Northwestern corner of Colorado in the East center portion of Rio Blanco County. The Town of Meeker is the county seat for Rio Blanco County.

GOVERNING BODY

The Meeker Sanitation District is a Special District and a political subdivision of the State of Colorado. The voters elect five Directors to serve on the District Board. Special District elections are held on the Tuesday succeeding the first Monday of May in every odd numbered year. The Board of Director Members serve four-year terms, which are staggered. Two Board Members are elected one election and the other three Board Members are elected the next election.

ECONOMIC BASE

Meeker residents are employed in various activities, such as: agriculture, mining, construction, natural resources, tourism and government. An increase in jobs related to the natural gas and oil industry impacted this area substantially in 2008. Although the oil and gas industry are alive in Rio Blanco County, it has slowed substantially. Several gas processing plants have been constructed and are employing a fraction of the workers that were here in former years. Shell Oil is no longer operational in the County. Some employees for the gas processing plant have made their homes here in Meeker. The number of oil and gas drilling rigs has declined in the last couple of years, the area is seeing a few new drilling rigs move into the area recently. It was expected that the population would decrease when the pipeline and gas plant construction employees left, this happened sooner than anticipated. Although the oil and gas industry is still present here the community has felt the loss of revenue and employment with recent changes to use more sustainable energy resources. The District feels that the oil and gas is present here, and as prices change, we probably will be impacted in the future. The community has felt the loss of revenue and employment due to the loss of oil and gas industry. There is still one Soda Ash Plant operating in the County.

As with all of America Covid-19 has played a role in our economics. Businesses were hard hit in our community. The District complied with all of the state of Colorado mandates. Covid-19 has changed the way that we do business with our customers. We have seen an upswing in the amount of delinquent accounts. We have brought in new payment methods for our customers that are contactless, allowing for safety and distance for our customers and employees. Covid-19 is an unprecedented situation that only time will predict the effects on our community, Colorado, United States and the world as a whole.

MEEKER SANITATION DISTRICT

2021 BUDGET MESSAGE

Introduction

The Meeker Sanitation District's 2021 budget has been prepared in accordance with the Board of Directors continuing philosophy of offering services as economically as possible. The Meeker Sanitation District has a goal of operating economically and insuring the health, safety, prosperity, security, and general welfare of the people of the Meeker Sanitation District.

Budget Highlights

The 2021 budget has been prepared by projecting revenues based on information available historically and other projections provided to the Meeker Sanitation District from the Department of Local Affairs, and the Rio Blanco County Assessor. The budget includes a section with beginning and ending fund balances.

The Meeker Sanitation District had no employee changes for 2020. The District employs a Plant Manager, an Assistant Plant Manager and one Plant Operator for the wastewater treatment facility. The District has an Office Manager and an Office Assistant. The Board of Directors has looked hard at the wages of the District employees, no employees will receive a wage increase for 2021. The officers for the Board of Directors remained the same for 2020 as they were in 2019 with Chairperson Michael Hoke remaining the same, and Travis Day is the Secretary of the Board and Cindy Balloga is the Treasurer of the Board.

Everyone has worked diligently to minimize expenditures without jeopardizing District services and maintenance for the District's equipment and lines. The Meeker Sanitation District is committed to maintaining quality services and preserving the District's investment in the sewage treatment plant, lines and buildings. The District will be working toward obtaining funding for future upgrades. FEMA has performed a re-evaluation of the flood plain and the District has learned that we will need a new berm or retaining wall to protect our wastewater treatment plant from a flood, should one occur. The District has diligently worked with Rio Blanco County on the Hazard Mitigation Plan. Both the County and the District have finalized and adopted the Hazard Mitigation plan.

The Meeker Sanitation District believes that motivated, competent and dedicated employees are essential to achieving this commitment. The Meeker Sanitation District will continue to keep costs of government economical and take an active role in promoting cooperation with other governmental entities recognizing that it benefits all citizens of the community.

The 2021 Meeker Sanitation District budget was prepared using the accrual basis of accounting. The primary services that will be provided during the 2021 calendar year are maintaining the collection system and wastewater treatment facility for the service of wastewater treatment.

Revenue Overview:

Revenues projected during 2021 are estimated at \$864,253.33. Property taxes increased minimally for 2020 due to changes in the Rio Blanco County Assessors valuation. Revenues are expected to be more than they were in 2020. The District will temporarily reduce the mill levy for the District from 9.47 mills to 7.47 mills. After careful consideration the Board of Directors has decided to reduce the mill levy to help those businesses in the community that pay a substantially larger portion of the property taxes than do the residential users. The board of the Sanitation District made a difficult decision to increase rates, which was thought to be fair and equivalent for all users. The District increased the service rate, to \$40.00 per 8,000 gallons base water usage on April 1, 2020. The District also charges \$4.00 per 1000 gallons per water usage over the 8,000 gallons base.

The Meeker Sanitation District's Certified Assessed Value by Rio Blanco County Assessor on December 1, 2020 was \$20,168,740.00, which will generate \$150,660.49 in property tax as revenue. The Meeker Sanitation District's reduced mill levy is 7.47.

Expenditure Overview:

For the operation of the District, the estimated expenditures for 2021 have increased by \$4,443.32 from the 2020 appropriated expenditures. The District has seen an increase in the employee health insurance program, an increase in the water sampling program, and an increase in property and liability insurance.

For the 2021 budget year the office will operate with two employees and the plant will have three employees to share the duties of treating wastewater, maintaining equipment, sewer mains, grounds and buildings.

Budget Summary

The proposed 2021 operations budget has been increased by \$4,443.32 from the 2020 budget. Capital Outlay for Improvements has a separate page in the Budget. Capital Outlay is still figured in the Expenses on the total Budget outlook. The Meeker Sanitation District's budget is actively monitored throughout the year by the Board of Directors and the District staff members to ensure that operating expenditures do not exceed operating revenues.

The present staff strives to maintain the best service to the people that is possible. Members of the staff participate in continuing education classes in their respective fields to maintain a high quality of performance of their tasks. The commitment of the employees and the Board of Director Members has contributed to the success of the services provided by the Meeker Sanitation District.

Respectfully Submitted

Gail Frantz
Office Manager
